# Alto. Aug 3 updates

Hi everyone,

Anton here.

This week I released many new things in Alto.

The most important ones:

- It's now possible to make website from a folder in one click. See video <https://www.youtube.com/watch?v=dvmovOulHDA>
- It's not possible to see overview of your notes every time you open new tab in Safari. See preview here <https://www.youtube.com/watch?v=rRRQ601I3K4>

In July Alto was downloaded 2x times more than in June or May.

So I'm happy with that.

But if you have 1 minute, please go to AppStore and leave a review <https://apps.apple.com/us/app/alto-computer/id6480425094?mt=12>

They help!

Anton
